ESADE Business School, Barcelona, Spain

Experience the World Through Exchange

WHU has established an outstanding network of cooperation with over 200 universities across all five continents. One particularly unique aspect of WHU is the quality of its partners.

WHU has agreements with half of the 30 top business schools in the US - the majority of these being exclusive within Germany. No other German higher education institution comes close to enjoying so many active and high-quality partnerships.

International experience is a crucial element of WHU's philosophy and students from all programs are offered fantastic opportunities at our partner universities around the world. In return, every semester we have the pleasure of hosting approximately 150 exchange students from across the globe.

WHU is a unique school located in the small town of Vallendar, here you'll experience studying in a completely different way to many other universities. Meeting exchange students from every corner of the world, from Canada to New Zealand to South Korea was the main highlight for me. (...) In addition to international students you will also have the opportunity to mix with WHU Germans and experience their way of student life. The school has an excellent reputation which will stand to you in your future and there is a broad range of exciting courses to choose from.

Eleanor O' Brien
Trinity College, Dublin, Ireland

The many partner universities of WHU were one of the main reasons why I returned for my Master's degree. The large network just offers so many opportunities to study at different places for management abroad courses or the exchange semester. And it is not just about studying; it is about meeting new friends there, experiencing all those cultures and making life-long memories.

Sabine Röhl
WHU – Otto Beisheim School of Management

The longstanding partnership between the McCombs School of Business and WHU has enabled many WHU students to study business and experience life on our college campus. We highly value the global perspectives that WHU students bring to our classrooms, and we've found that WHU students can study a variety of business subjects at our school that build upon what they have been learning at home.

David E. Platt
Associate Dean for Undergraduate Programs McCombs School of Business, The University of Texas at Austin, USA
